DETAILED ACTION

Acknowledgements

This Office Action is in response to the original application filed on December 9, 2004.

Claims 1-48 are currently pending and have been restricted.

Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 2, drawn to content rental system.

Group II, claim(s) 3-18 and 43-45, drawn to generation of content license and policies.

Group III, claim(s) 19-33 and 46-48, drawn to content playback and rendering.

Group IV, claim(s) 34-42, drawn to semiconductor storage device.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: a common technical link of system to assign content rights, store content, and playback content is found among the four groups. But the technical link is disclosed in prior art (see Sasaki et al., U.S. Patent Applicant No. 2002/0077988; specifically

see ¶5, ¶31, and ¶44), and is not consider to be a contributing special technical feature. The groups lack unity of invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
